

UNIVERSITY OF VICTORIA NEWSLETTER Vol 2 No 6 November 17, '72

A new full-color picture post card showing a view of the UVic campus from the air is now on sale in the University Bookstore and the Campus Shop. Trudy Martin, Bookstore manager says she expects to receive a limited number of 16 x 20 enlargements of the same picture, also in color, in time for Christmas shopping.

Government Commission

Professor Norman Ruff, Political Science, was recently appointed to the Commission of Inquiry into Employer-Employee Relations in the British Columbia Public Service.

The Commissioners have been meeting for the past three weeks, and he says, "We hope to have the report ready by the Christmas deadline."

Professor Ruff earlier acted as a research assistant to a New Brunswick Commission on employer-employee relations, headed by Professor Saul Frankel. Frankel is reported to be one of Canada's leading experts on the subject.

Other members of the B.C. five-man commission are Chairman, R.D. Higgins, Chief Personnel Officer for the Civil Service Commission; John Fryer, Executive Secretary of the B.C. Government Employees' Union (BCGEU); Norman Richards, a

Victoria officer for BCGEU and G. Lorne Tomalty, Personnel Officer of the Mental Health Department.

The commission will hold public hearings November 20-December 1 in Prince George, Kamloops, Victoria and Vancouver.

Science 300

Science for non-scientists is the objective of Science 300, a course introduced this year.

Dr. G.B. Friedmann, Physics, said the lectures are attracting about 40 third and fourth year students enrolled in non-science courses.

He said the purpose of the course is to try to familiarize non-science students with the "purpose and attitudes of scientists", while at the same time giving them a basic understanding of science and its concepts.

"For this first year of the course, we are exploring present concepts of the structure of matter, and lecturers present highlights

of their respective disciplines toward this end," Dr. Friedmann said.

Lectures are at 1:30 pm in Elliott 060. Dates, lecturers and topics of the next three special lectures in the series are: November 29, Dr. W.K. Hastings (Mathematics) "Sampling and Statistics"; December 4, Dr. M.H. Scargill (Linguistics) "Exploding Language"; December 6, Dr. K.C. Moss (Chemistry) "Science and Faith".

UVic Theatre

Overflow crowds attended every performance of "One Flew Over the Cuckoo's Nest", the first all student cast production this year. The play was directed by Dr. Harvey Miller and was presented in the Phoenix Theatre.

New productions in the making for presentation before Christmas include Henrik Ibsen's "Hedda Gabler" with Professor Carl Hare directing third and fourth year students. The play will be seen December 7-10 at 8 pm in the Phoenix Theatre.

At 8 pm December 15-17, graduate student David Parry will direct two plays of the Wakefield Cycle in the Maltwood Museum.

Dust Wall

A temporary dust wall is to be constructed at the McPherson Library, G.R. Campbell, library systems analyst, said today.

Mr. Campbell said construction of the wall will close off the windows on the back wall of the present facility. It must remain until completion of the library addition, scheduled for September 1973.

Originally planned for completion in the summer of 1973, work on the \$3.4 million project was delayed because of strike action by construction workers.

The present building was completed in the summer of 1964 and now holds 470,000 volumes, considerably in excess of the designed capacity of the building.

Red Feather

The campus division of the Greater Victoria United Appeal campaign reached 60 per cent of its goal last week. Bill Bender, Personnel, reports the total collected up to November 8 was \$11,787.50, leaving \$8,212.50 to come, in order to reach the objective of \$20,000.

He said 1,150 pledge cards had been distributed, but only 248 had been returned representing a good level of giving from those who had contributed.

Closing date is November 17.

Preserve a Life

Registration vacancies for Preserve a Life programs are nearly filled, says Linda Flavelle.

Miss Flavelle, with her sister Lois, physical education seniors, planned the project to teach cardio pulmonary resuscitation. It is being presented November 7, 8 and 22 in Craigdarroch College by the Intramural Athletic Department. The course is open to anyone associated with UVic, but classes are limited up to 15 each.

The program is sponsored jointly by St. John Ambulance Association of B.C. which will supply instructors, and the Industrial First Aid Attendants Association (IFAAA).

The techniques to be taught are approved by the American and Canadian Heart Associations, the Workman's Compensation Board of B.C., St. John Ambulance Association and the IFAAA.

Toys Wanted

Recycled toys will be welcomed this Christmas by many children in Victoria and the surrounding area.

The Recycling Depot is offering some warehouse space for collection and distribution of repairable toys for underprivileged children in the Capital Region.

Christmas gifts and ornaments made from non-recyclable materials are on display at the depot.

Officials say volunteers willing to repair toys or ornaments may contact the depot at 479-1015. Used toys will be accepted at regular depot hours, 9 am—5 pm, Monday, Friday and Saturday and 9 am—8 pm, Wednesday.

A color film on recycling is now complete and will be shown at the depot on Saturdays.

Penitentiary Courses Continue

The success of the research project conducted by J.D. Ayers, Education, which brought university level courses to inmates at the British Columbia Penitentiary last term has resulted in the awarding of a contract to the university by the office of the Solicitor General, Ottawa.

Under the terms of the contract, the University of Victoria will provide four university-level credit courses for 40 to 50 inmates at the British Columbia Penitentiary. In the event of enthusiastic inmate response, the university will undertake to provide an additional course, which would furnish inmate students with first year university.

The project is, in effect, a continuation of the research done by Dr. Ayres and Anthony Parlett last term through a \$35,000 Donner Canadian Foundation grant and matching grant from the Federal Government.

J.D. Ayers

The contract calls for the university to provide courses in English, History, Psychology and Sociology at the first-year level, plus remedial education.

Course content is supervised by A.E. Loft, History; R.E. Hagedorn, Anthropology and Sociology; R.A. Hoppe, Psychology; and G.G. McOrmond, English.

Lecturers are Brian Pollick in History 242 who also supervises Sociology 100, and Peter Busby who lectures in English 120 and supervises Psychology 100.

Dr. Ayers says the program is aimed at helping each man develop a more mature set of values which should help him to adapt more readily to accepted standards

once he is released.

"Political, social, economic and ethical issues inherent in the courses are used as vehicles for discussion," Dr. Ayers said, and added, "The men come to realize there are several sides to any problem, and an individual may take any one of these."

The courses are now underway at the penitentiary.

Bonnie Tripp Trip

A winter vacation in Hawaii is something to look forward to, but with expenses pre-paid it could be doubly enjoyable.

Miss Bonnie Tripp, personnel, will be taking off on such a trip early in the new year, with air fare, hotel and the use of a U-drive all paid for by C.P. Air.

Bonnie won the "trip for two" when she was selected from all secretaries in Victoria who had booked passage for their bosses on the airline. She recently transferred to personnel from Political Science, where she qualified by making reservations for her then boss, Professor Neil Swainson.

There's a P.S.—Bonnie says she has already picked her trip partner.

Faculty News

On Friday, November 17, R.R. Jeffels, Director of Admissions, will be delivering the keynote address to about 3,000 teachers in Montreal. The title of his address is "Time, Telamones and a Running River". The Conference will be dealing, in general, with change and the influence of change on education.

On Monday, November 20, Mr. Jeffels will be addressing the graduating class at the University of Toronto. The address is entitled "Academia: Paths, Groves and Labyrinthian Ways". Attendance will be about 400.

Linguistics

Three members of faculty recently attended the Western Conference on Linguistics Second Annual Meeting at the University of Oregon at Eugene, Oregon. Dr. Thomas E. Hukari delivered a paper entitled "A Re-examination of Semantic Well-formedness"; Dr. H.J. Warkentyne delivered a paper entitled "The Grammar of Accent Phrases in Japanese" and Dr. Thomas M. Hess, a member of the WECOL Executive Committee, chaired Session III of the Conference.

Geography

The recent meeting on "Residential and Neighbourhood Studies in Victoria, B.C.", which was hosted by the department, attracted ninety individuals from neighbouring universities and the local community.

Dr. W.R.D. Sewell has been appointed to The Natural Resources Journal Advisory Council and to the Canadian Committee for the UNESCO "Man and the Biosphere" Program.

Education

Dr. Frank E. Churchley, convened the first of what may become annual seminars on Research in Music Education. Guest speaker **Dr. James Carlsen** of the University of Washington, discussed "Problem Definition in Music Education" at the November 3 seminar.

Dr. Ian L. Bradley addressed the annual fall workshop of the B.C. Music Educators Association, November 4. "The Use of Creative Teaching Methods in Classroom Music" was the address topic.

In-service workshops for elementary teachers at Sandspit and Masset will be conducted by **Dr. Margery Vaughan**, who leaves November 16 for the Queen Charlottes.

Dr. John Downing will address three conferences in the U.S. within the next month. On November 25 in Portland, Oregon, he will address a meeting of the International Reading Association on "The Open School and the Language Experience Approach—Natural Partners?"

"A Cross-National Investigation of Cultural and Linguistic Mismatch in 14 Countries" will be his topic November 28 when he speaks to the World Federation for Mental Health at Tucson, Arizona. At the National Reading Conference, December 2, in New Orleans, he will speak on "A Summary of Evidence Related to the Cognitive Clarity Theory of Reading".

Dr. Lloyd Ollila and **Dr. Terry Johnson** will address the Portland conference on "Assessment of Reading Readiness and Reading Readiness Programs" and "Classroom Activities Related to Experience with Literature".

Chemistry

Dr. Kenneth C. Moss and **Dr. Martin A.**

Smith have been selected to co-author comprehensive articles on Antimony Chemistry and Bismuth (+3 oxidation state) for the *International Review of Science*, a biennial series published jointly by the Medical and Technical Publishing Co. Ltd. and Butterworth & Co. (Publishers) Ltd., Oxford, England. The *International Review of Science* aims to provide, every two years, in advanced and critical review articles, a regular survey of research in science, technology and medicine for research scientists and senior scholars. The contributions by Drs. Moss and Smith will appear in a second series of volumes slated for release in January, 1974.

First of two speakers under the Pacific Northwest Organic Chemistry Lecture Series will be **Professor Saul Wolfe**, Queen's University, Kingston, Ontario. The PNWO lecture series involves four area universities; UBC, UVic, U. Wash. (Seattle) and Washington State U. (Pullman), and serves to bring to the region prominent organic chemists from North America.

Professor Wolfe received his M.A. in 1955 at U. of Toronto and his Ph.D. from U. of Ottawa in 1957. From 1957 to 1959 he was with the National Research Council and currently holds the rank of Professor of Chemistry at Queen's. His research interests encompass the fields of organic synthesis, organic chemistry of antibiotics, organic reaction mechanisms and organic stereochemistry and conformational analysis. He will be visiting the campus on Friday, November 24, 1972 and will be presenting a seminar entitled "Sulphur-free Penicillin Derivatives" in Elliott 160 at 4:00 pm on that day.

The second speaker will be **Dr. Ken Sauer**, Associate Professor of Chemistry at the University of California, Berkeley. He will present a paper in Elliott 160 at 1:30 pm on Wednesday, November 29. He specializes in biophysical chemistry and his topic will be "Molecular Arrangements in Active Subunits of Photosynthetic Membranes".

Dr. Alfred Fischer joined with other Heads and Chairmen of University Chemistry Departments, from across Canada, at a special conference held in Montreal from November 4–7, to exchange views on academic and administrative matters of common interest.

Physics

L.P. Robertson, **D.A. Bryman** and **P.W.**

James travelled to Berkeley, California, November 8-12 to perform an experiment at the cyclotron.

Classics

Dr. Peter Smith, now Dean of the Faculty of Fine Arts, continues to teach one Latin and one Classics course.

Professor F.M. Combella (University of Oregon) is Visiting Professor for the first term. **Professor David Campbell** succeeded **Professor H.H. Huxley** as Chairman.

Collaborating with the Division of Continuing Education, department members conducted a Classical Weekend on campus and inaugurated a Saturday morning beginners' class in Greek with an enrolment of twenty-seven.

The first two post-graduate students have been welcomed to the M.A. program now under way. Of the five Honors' students who graduated in the summer of 1972, four have gone on to post-graduate work at McMaster, Reading and Durham.

Faculty members read papers at conferences in Canada, U.S.A. and Romania. **Professors Campbell** and **Huxley** attended the latter, where the first International Conference on Ovidian studies was held.

Replicas of museum sculptures and artifacts, purchased with a grant from the Leon and Thea Koerner Foundation, are displayed in the foyer of the department in the Sedgewick Building.

Philosophy

The First Annual Victoria Philosophy Conference on Formal Ontology, was held on Campus the weekend of October 14–15. Upwards of 75 guests from all parts of Canada and the U.S., and a small number from England, were registered. Directors of the Conference were **Dr. Charles Daniels** and **Dr. John Woods**, who are currently readying the Proceedings for publication.

Dr. E.-H. Kluge attended the VIII^e Inter-american Congress of Philosophy, in Brasilia, Brazil, where he presented a paper, "On the Numerical Diversity of Objects".

Recently the faculty and students of the department have attended talks from various colleagues from elsewhere on

campus. Visitors have been **Dr. R.M. Pearce** (Physics) who delivered a paper entitled "Is the Universe Left-Handed or Right-Handed?", **Dr. R.L.D. Wright** (Psychology) who spoke on "Behaviourism in Psychology", and **Dr. Robert G. Reid** (Biology) whose topic was "Photosynthetic Man".

Mathematics

Victor Klee, Professor of Mathematics at the University of Washington, will give a talk entitled "Shapes of the Future", on Monday, November 27 at 4 pm in Clearihue 106. In his talk, Professor Klee will show how physics, botany, and organic chemistry provide illuminating examples of some unsolved geometrical problems. Interested persons can see his article of the same title in the *American Scientist* Vol. 59 (1971) pp. 84-91.

Calendar of Events

FRIDAY 17

- 12:30 pm Music at Noon/MacLaurin 144.
- 3:30 pm Lecture/Cornett 170. Dr. G. Alfred Forsyth (University of New Hampshire) will speak on "Selected Attention: a Psychophysical Approach". (Psychology Department)
- 4:30 pm Jr. Varsity Basketball/Gym. UVic vs Douglas College.
- 6:30 pm Women's Basketball/Gym. Vikettes vs University of Alberta.
- 8:30 pm Men's Basketball/Gym. Vikings vs University of Alberta.

SATURDAY 18

- 1:30 pm Rugby/University Grounds. Velox vs Saxons.
- 2:30 pm Rugby/University Grounds. Norsemen vs Vikings.
- 4:30 pm Jr. Varsity Basketball/Gym. UVic vs Douglas College.
- 6:30 pm Women's Basketball/Gym. Vikettes vs University of Alberta.
- 7:30 pm Film/MacLaurin 144. "Taking Off" and "The Night of the Following Day".
- 8:30 pm Men's Basketball/Gym. Vikings vs

University of Alberta.

SUNDAY 19

- 1:00 pm Women's Field Hockey/P Hut Field. Vagabonds vs Sandpipers II.
- 2:15 pm Soccer/P Hut Field. UVic vs Royals.
- 3:00 pm Hockey/Juan de Fuca Arena. James Bay Athletic Association vs Norsemen.
- 4:00 pm Music/MacLaurin 144. "Sundayafternoon" concert.

MONDAY 20

- 4:30 pm Lecture/Cunningham 1018. Dr. Eric Hochberg (Biology) will speak on "Barefoot Across the Water".

TUESDAY 21

- 1:30 pm Lecture/Elliott 168. Dr. Melvyn D. Faber (English) will speak on "The Unconscious". (Liberal Arts 305)
- 4:30 pm Music Concert/MacLaurin 144.
- 7:30 pm Lecture/Craigdarroch 206-7. Dr. S.A. Berry will speak on "Clinical electrophoresis and membrane separation", Wai Man Poon will speak on "Acupuncture", and Byron Yashuk will speak on "Renal Dialysis". (Bacteriology and Biochemistry)
- 8:00 pm Badminton/Gym. All faculty & staff welcome.

FRIDAY 24

- 12:30 pm Music at Noon/MacLaurin 144.
- 3:30 pm Lecture/Cornett 170. Dr. John S. Hayward (Biology) will speak on "Thermal Stress in Man". (Psychology Department)
- 4:00 pm Lecture/Elliott 160. Professor Saul Wolfe (Queen's University) will speak on "Sulphur-free Penicillin Derivatives". (Chemistry Department)
- 8:00 pm Jr. Varsity Basketball/Gym. UVic vs Centralia College.
- 9:15 pm Hockey/Esquimalt Sports Centre. Norsemen vs Esquimalt Butlers.

SATURDAY 25

- 1:00 pm Women's Field Hockey/P Hut Field. Vagabonds vs Esquimalt.
- 2:30 pm Women's Field Hockey/Oak Bay High School. Sandpipers I vs Vikettes.
- 7:15 pm Film/MacLaurin 144. "The Music Lovers".
- 8:00 pm Jr. Varsity Basketball/Gym. UVic vs Centralia College.
- 8:30 pm Hockey/Memorial Arena. Vikings vs University of British Columbia.
- 9:15 pm Film/MacLaurin 144. "The Music Lovers".

NEXT DEADLINE

Friday, November 24 at 12 noon

Published Every Second Friday

By University Relations Office

University of Victoria

Editor: Maurice Cownden

Layout: Jim Bennett

SUNDAY 26

- 1:00 pm Rugby/University Grounds. Castaways vs Jutes.
- 4:30 pm Hockey/Memorial Arena. Vikings vs University of British Columbia.

MONDAY 27

- 4:00 pm Lecture/Clearihue 106. Professor Victor Klee (University of Washington) will speak on "Shapes of the Future". (Mathematics)
- 8:15 pm Lecture/MacLaurin 144. Dr. Michael J. Ashwood-Smith (Biology) will speak on "Life Below Zero". (University Extension Association)

TUESDAY 28

- 1:30 pm Lecture/Elliott 168. Dr. Rod Symington (German) will speak on "How to make friends and influence people". (Liberal Arts 305)
- 4:30 pm Music concert/MacLaurin 144.
- 7:30 pm Lecture/Craigdarroch 206-7. Dr. Ray Baillie will speak on "A Day in the Life ... Clinical Chemist". (Bacteriology and Biochemistry)
- 8:00 pm Badminton/Gym. All faculty & staff welcome.

WEDNESDAY 29

- 1:30 pm Lecture/Elliott 060. Dr. Keith Hastings (Mathematics) will speak on "Sampling and Statistics". (Science 300)
- 1:30 pm Lecture/Elliott 160. Dr. Ken Sauer (University of California, Berkeley) will speak on "Molecular Arrangements in Active Subunits of Photosynthetic Membranes". (Chemistry)

THURSDAY 30

- 8:00 pm Lecture/Commons Block 203-4. Dr. M.H. Scargill and Dr. H.J. Warkentyne (Linguistics) will speak on "New Methods in Dialectology".
- 8:30 pm Hockey/G.R. Pearkes Arena. Stockers vs Norsemen.
